Constantine Papadopoulos
PUBLISHER

Dioptora was established 40 years ago by

a lawyer who had such a passion for books that he decided to quit his job

in order to set up a publishing house specializing in Mind, Body and Spirit

books – **something unique at that time for the Greek market.**

The mission of the company was to offer books which would make a

long-lasting impression to readers and to accomplish this in a loving,

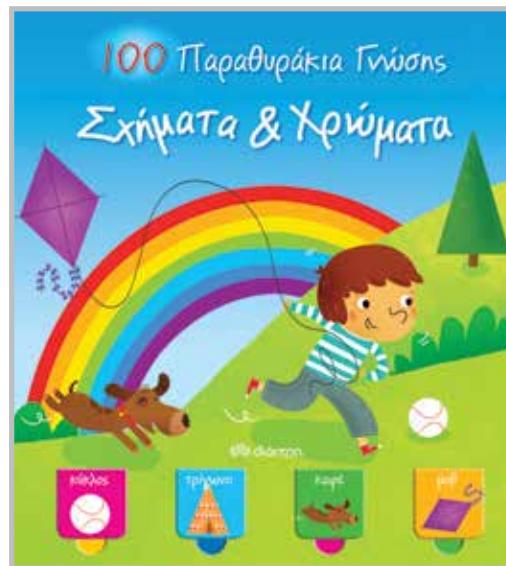

responsible and professional way.

Today, having many more genres in our list, we intend to keep on

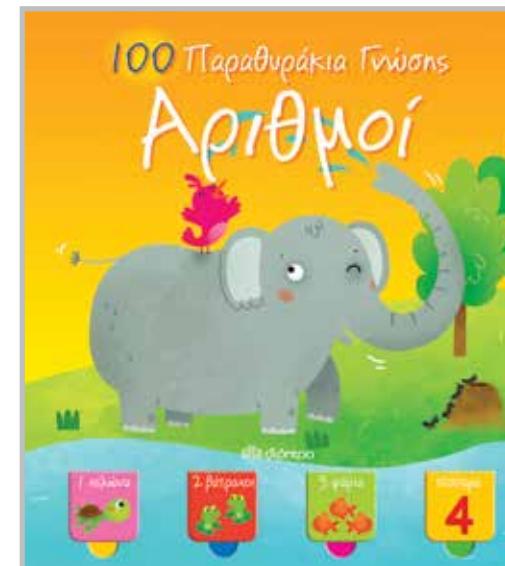

improving ourselves and our company so as to create a publishing house

that will incorporate our values.
